Tuesday, April 3, 2018

State of Hawaii - Clean Air Branch

2827 Waimano Home Road
Hale Ola Building, Room 130
Pearl City, Hawaii 96782
Phone: 808-586-4200

REGISTRATION INSTRUCTIONS:

First Time Users (www.APTI-Learn.net):

1. Click on the “First time user? Click here to register” link in the upper right-hand corner of the webpage;
2. First screen requires: 1) work email address; 2) first and last names; 3) password; and 4) security question;
3. Second screen asks about affiliation/agency. There are two options for filling out this section:
 - Agency Quick Search, or;
 - Affiliation/Agency
4. Third screen includes a list of job functions and other profile information. You can click as many (or few) job functions as appropriate. Once you have completed this third screen, you are done setting up your profile.

After completing the profile:

5. Click the “Register” tab on the left side, or the “Register” bubble in the middle of the page;
6. Scroll down the 2018 Training Calendar until you see the training course that you are interested in registering for;
7. On the right side of the table you will see a “register” link;
8. Click the “register” link, and voila you are registered (be patient it takes a few seconds for the confirmation note to pop-up);
9. You will receive an automatically generated email saying that you have been placed on a waiting list (this is so unapproved attendees can be weeded out).
10. Once approved, you will receive a second email saying you are enrolled.

Previously Registered Users (www.APTI-Learn.net):

1. Enter email address and password in appropriate spaces;
2. Go to step 5 (above) and follow directions.

ABOUT THE TRAINING

WHO SHOULD ATTEND: New, entry-level stationary source inspectors, regulatory agency staff, and environmental specialists in business and government.

LEARNING OBJECTIVES: Those completing this course will gain a basic understanding of the general information associated with to air pollution control and enforcement. The following topics will be covered in this course:

- Developing a framework for designing effective compliance strategies
- Understand different concepts and principles of environmental compliance and enforcement

COURSE DESCRIPTION: This intensive a 3-day course providing a framework for designing effective compliance strategies and enforcement programs.

The course defines the terms compliance and enforcement, introduces basic principles, and explores different approaches for implementing each element of the framework. The instructors who guide participants through the concepts and principles of environmental compliance and enforcement deliver the course through a series of exercises. Participants, through a "case study" will take part in a negotiation session to resolve a violation of environmental requirements that mimics a real-life enforcement situation.

This course is designed for a student that seeks to understand the complete compliance process including enforcement. The student should come away with the knowledge and skills necessary to become a productive member of a compliance team. The two and one-half day course will focus on the enforcement case process used by US local, state and federal environmental agencies- primarily the administrative and civil judicial processes. Topics include targeting, collecting data that is necessary for case development, determining compliance status, selecting the appropriate enforcement option, penalties, negotiation, and case resolution follow-up. The course discusses all violation resolution options including informal actions, formal notices, administrative orders and administrative consent orders, civil litigation settlement, and case litigation. The importance of proper documentation and adherence to procedures will be emphasized. The course includes a combination of lectures, exercises, and role-playing. A manual is included

with the course.

This intensive a 3-day course providing a framework for designing effective compliance strategies and enforcement programs. The course defines the terms compliance and enforcement, introduces basic principles, and explores different approaches for implementing each element of the framework.
