WHO SHOULD ATTEND: This course is designed for semi-experienced stationary source permit engineers, inspectors, regulatory agency staff, and environmental specialists in government.

LEARNING OBJECTIVES: Those completing this course will gain an understanding of the information associated with permit writing. The following topics will be covered in this course:

- Review of permitting
 - o Definition
 - o Types
 - o Authority
 - o Process
 - o Contents
 - o State permits
 - o SIP Authorized State and Local Preconstruction Review
 - o Delegated Federal Programs
 - o Title V
 - o Public Involvement
- New Source Performance Standards
- National Emission Standards for Hazardous Air Pollutants
- Toxics Issues

COURSE DESCRIPTION: This course provides hands-on training in the methods and procedures used to review permit applications and to prepare air quality permits. This course is designed for personnel of State and local agencies that have some experience in permit programs. The course is designed primarily for permit writers, but inspectors who must read and interpret permit conditions and make site inspections will benefit as well. Course material will address state and local permits, as well as Title V federal operating permits. Other topics covered will include Compliance Assurance Monitoring; Monitoring, Reporting, and Record-keeping requirements; and toxic air contaminant issues associated with permitting.

SPACE LIMITATION: Registration is limited to 30 attendees. Air quality staff from the fifteen western states receive registration preference.

REGISTRATION FEES: There are no registration fees for state, local or tribal air

quality agency staff. For federal employees the registration fees are \$100.
