Subject: [External] RE: Federal Register/Vol. 83, No. 18 / January 26, 2018: Update

Kevin,

I do not have an exact date as to when the Jan. 26 revisions will be finalized.

We just completed our revisions to the proposed rule based on public comments and are in the process of confirming that everything is accurate. I will be forwarding the preamble/rule to the Office of General Counsel for review within the next few days. Afterwards, the preamble/rule will be forwarded to various reviewers in the Agency and then to the Administrator for signature. After signature, it will become effective 60 days later. The review process oftentimes takes 4-6 months. Given that, the final rule may be published in the Federal Register in late 2018.
